04 | Brand Elements

Iconography

Brand Icons

Icon style to be minimal, with rounded edges and rounded corners in line with the brand identity's curvy style.

Use the icons with green brand color on the black background.

Photography Style

Images Style 1

When selecting images, we prioritise authenticity and realism in portraying individuals with a nature colors and light without any modes, and preferred to used with the dark background.

We should ensure that the individuals in the images appear Arab and that their clothing is appropriate to their country.

The images should reflect industry elements such as e-commerce, revenue growth, and technology.

Photography Style

Images Style 2

We use a black and white images with lighter preset, and it's should used with white or green background colors.

Photography Style

Images Style 3

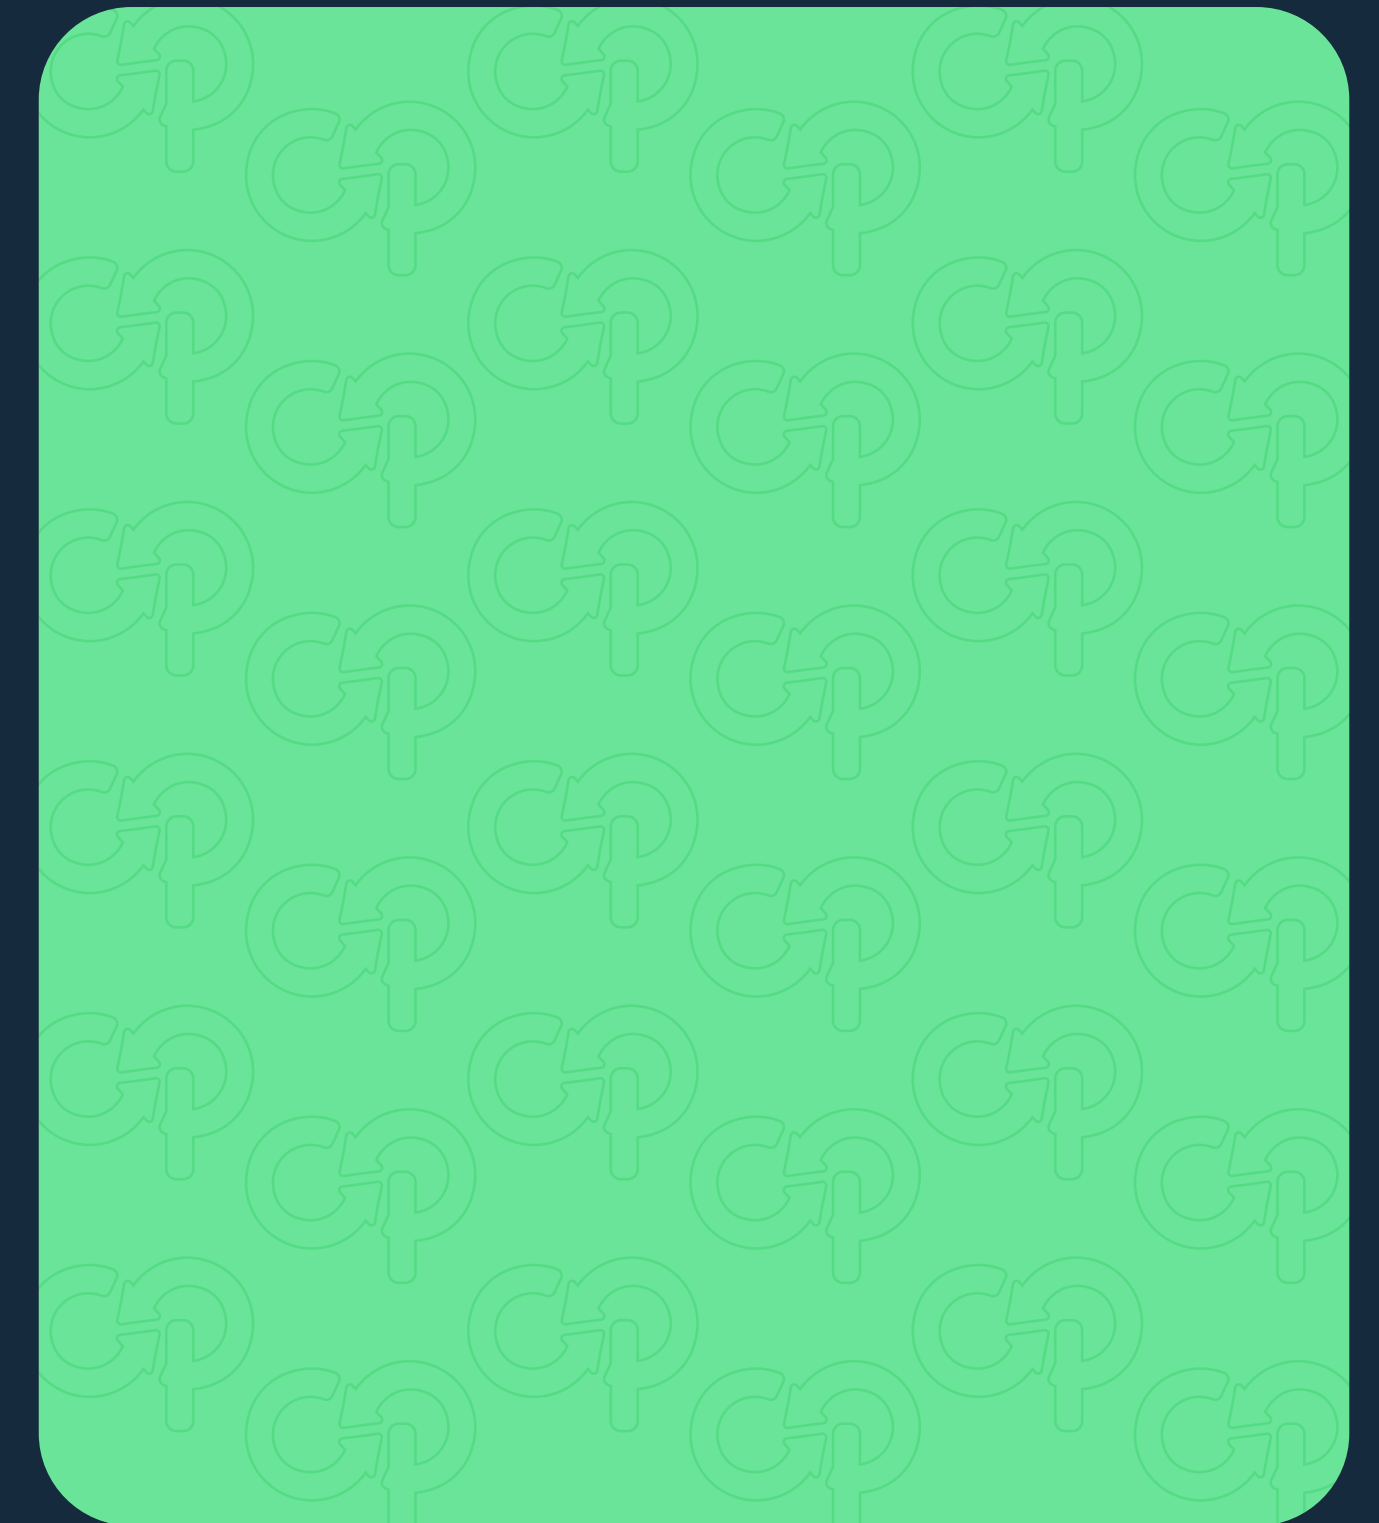

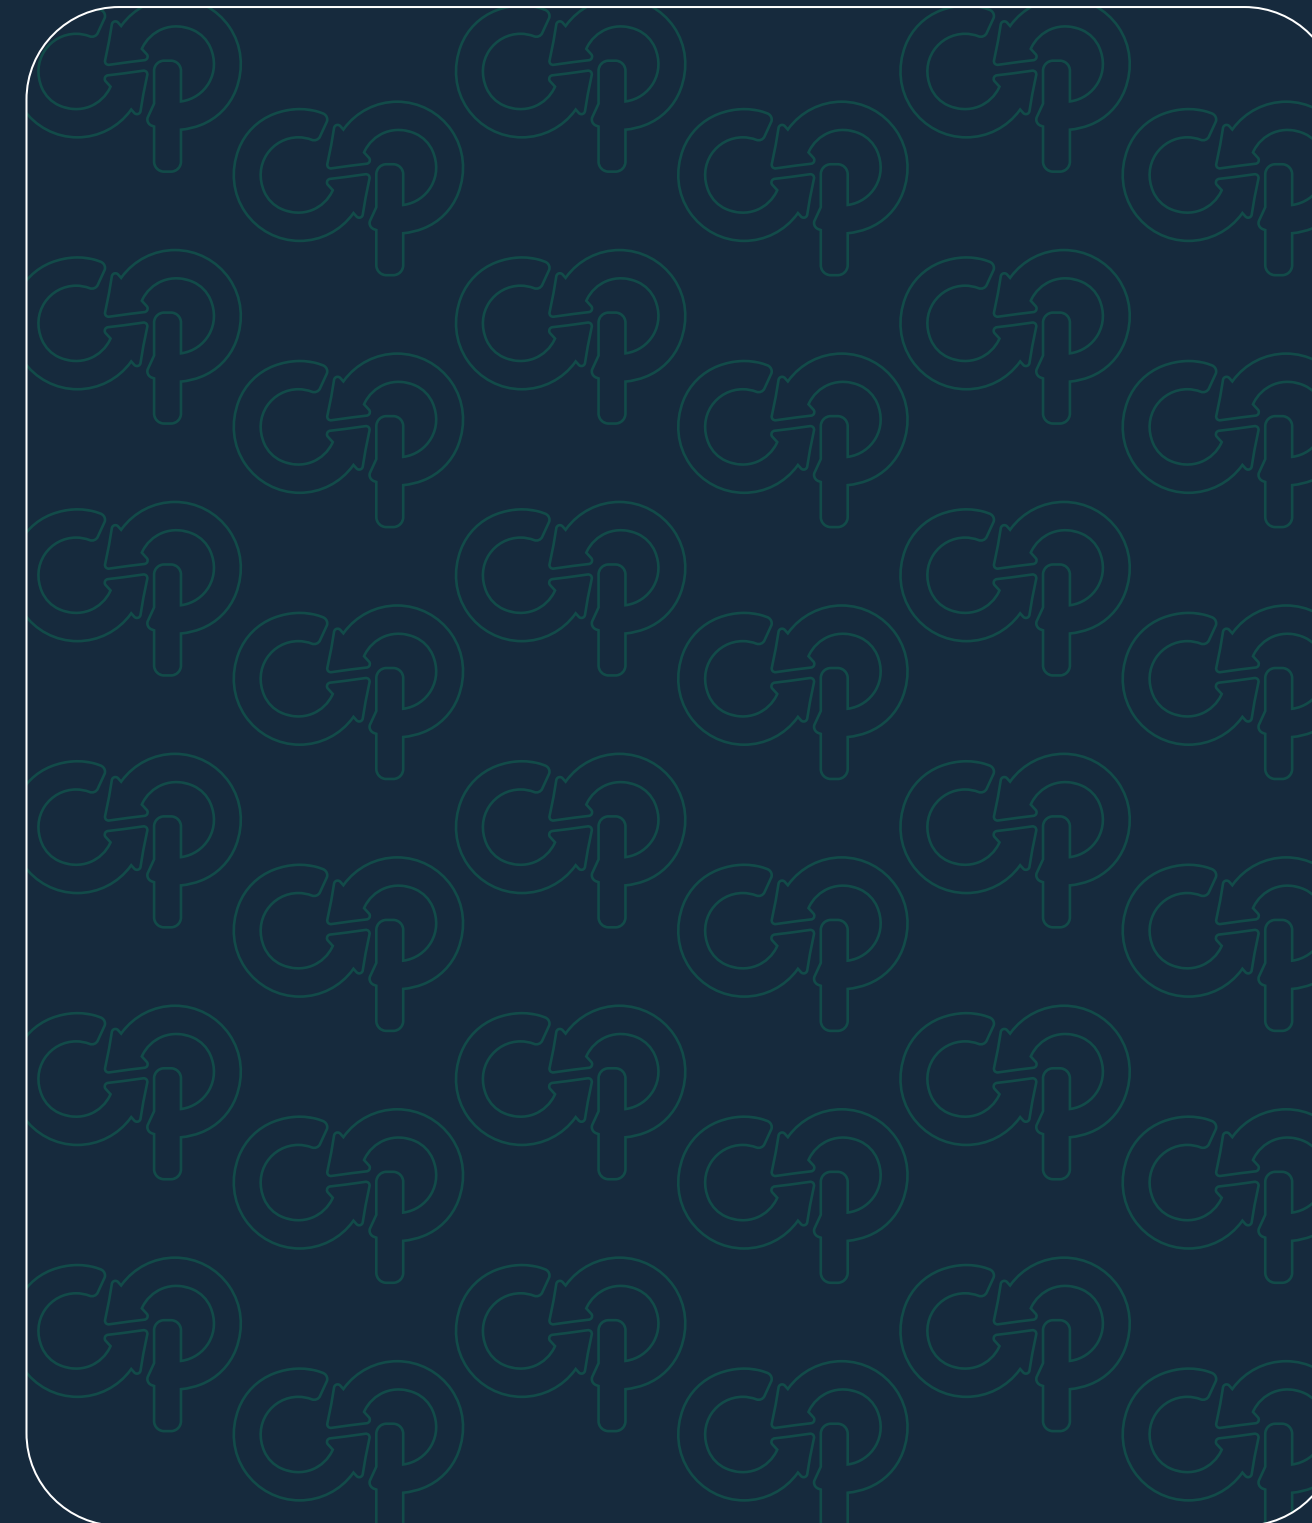

We use the images with green multiply mode layer on the images, and it's preferred to used with black or white background.

Patterns

Pattern Usage

We use the logo icon “OP” with outline style in green color with opacity to match the background color. It’s used with overlay mode with the dark background, and multiplay mode with the green background.
